The main purpose of the Journal of Educational Psychology ® is to publish original, primary psychological research pertaining to education across all ages and educational levels. A secondary purpose of the Journal is the occasional publication of exceptionally important theoretical and review articles that are pertinent to educational psychology.

**Journal of Educational Psychology - APA Publishing | APA**

Educational psychology involves the study of how people learn, including topics such as student outcomes, the instructional process, individual differences in learning, gifted learners, and learning disabilities. Psychologists who work in this field are interested in how people learn and retain new information.

**Educational Psychology and the Learning Process**

An advanced degree in psychology is the foundation of many interesting career paths within the discipline. In addition, an understanding of the science of psychology — for example, by earning a bachelor's degree in the subject — can help students in their careers and their lives. Keywords: educational psychology, teachers, instruction 1. Statement of the issue Over the years, educational psychology has been a part of teacher preparation, moving from a centerpiece in many programs, through periods when it was deemed irrelevant by some, to current concerns about its role in the reforming of teacher education and teaching.
