Reference manual for thread interface: Appendix C of the Reference manual discusses the thread interface. A postscript version of the CLIM 2.0 specification is somewhere else on the net. Franz Allegro Common Lisp (Unix version) System abstract:

Martin Cracauer: Thread Interfaces for Common Lisp

Fix: use an Allegro CL build that fixes a GC leak, which could result in the server process growing until it runs out of space. This bug was only present in version 6.1. Fix: handle "tcp connection reset" errors, which previously made the server die and require manual restart. They are now ignored.
