You can search for a specific title or browse by genre (books in the same genre are gathered together in bookshelves). It's a shame that fiction and non-fiction aren't separated, and you have to open a bookshelf before you can sort books by country, but those are fairly minor quibbles.

Dazzle Gradually

"Dazzle Gradually is like an air-raid siren, calling for science to reinvent itself for the 21st century; to look beyond the categorization and characterization of things and the traditional view of nature into a highly networked and involved view. In particular, it advises us to descend from our throne of delusion and realize that humanity (with all its technological and cultural trappings), is intimately and inextricably immersed in this grand system along with the prototcists and bacteria ...
