In the early 20th century, Osborn rose to fame after leading various fossil hunting expeditions and after training new vertebrate paleontologists in the Western United States. Osborn also described and named several dinosaur species such as the Ornitholestes, Tyrannosaurus rex, Pentaceratops, and Velociraptor.

Famous Paleontologists - Bio Explorer

The Dinosaur Explorers started their day with a tour of the museum's Evolution Gallery learning about the different kinds of teeth dinosaurs had and why. They then were able to touch some teeth and see what made each one unique! After that, we played an exciting round of Dinosaur Bingo and learned about a few more lesser known dinosaurs.
