E36 318is and E36 318Ti Compact has been a favourite of ours for years. The compact design lends itself perfectly to replacing BMW's 8 valve M10 and M40 engines, in pretty much all their applications, but of course there are always pit-falls to consider.

into our heads.

Installing the S52 or S54 engine (from the E36- or E46-chassis M3) is a popular swap, but it has been done to death. And in our opinion it changes the light, simple character of the 318is that we love so much.

e46 lumps dropped in an e36, sure there's a few with 530/535 v8's dropped in too. Not sure what sort of mods that'd require but would sound great lol
As said, you're cheapest option would probably be a 2.5l as there are quite a few kicking about and there not exactly slow!

By combining elements of our car's original M42 engine with parts from BMW 's later M44 engine—the same one we stole the lower timing chain cover from—Rowe and crew created a stroker for us. Their formula uses the unmodified crank from the 2.0-liter M44, some custom, short-skirt pistons they have designed, and the 318is's M42 engine ...
