El Tercer Chimpancé The Third

The Third Chimpanzee: The Evolution and Future of the Human Animal is a 1991 book by academic and popular science author Jared Diamond, in which the author explores concepts relating to the animal origins of human behavior. The book follows a series of articles published by Diamond, a physiologist, examining the evidence and its interpretation in earlier treatments of the related species, including cultural characteristics or features often regarded as particularly unique to humans. Diamond expl

Guns, Germs, and Steel continues as a must read for anyone remotely interested in the history of mankind. The Third Chimpanzee refers to Diamond's views that Homo Sapiens evolved from chimpanzees some 6 million years ago. The other "two" chimpanzees refer to a not well understood "third man" and robust australopithecines.
