Encyclopaedia Britannica's editors oversee subject areas in which they have extensive knowledge, whether from years of experience gained by working on that content or via study for an advanced degree.... See Article History. Family, a group of persons united by the ties of marriage, blood, or adoption, constituting a single household and interacting with each other in their respective social positions, usually those of spouses, parents, children, and siblings.

Family | kinship | Britannica

Kinship begins with family and can extend to include the entire clan. In this sense, one can clearly identify a difference between family and kinship as the family is more restrictive in comparison to kinship that captures a large number. Kinship can differ based on the cultural context, unlike in the case of the family.
