SlideShare supports documents and PDF files, and all these are available for free download (after free registration).

### Gearbox Oil Jawa Moped

Gearbox Oil The following information came from various sources and I offer it, not as gospel, but as the results of my research. The various Jawa moped models' handbooks and manuals give a variety of gearbox oil recommendations. Older models' books suggest either engine oil grade 30 or 40 or gear oil grades 80 or 90.

### Gearbox Oil - JAWA MOPED

Most mopeds have oil filling, level and drain holes and plugs - see the handbook appropriate for your model for the positions of these. You should always put oil in these Jawa moped gearboxes up to the level plug hole - do not overfill. Some 1990's single speed 210 models had no fill, level or drain plug holes for gearbox oil.

Fifth, add oil. Puchs use Type F transmission fluid. This should be readily available at just about any auto parts store (and many other places as well). For an E50, use 5.74 oz (170cc) of oil. Add this oil into the fill hole. If you are too lazy to measure, you can just fill it until it starts overflowing from the fill hole.

### Changing Puch E50 transmission fluid | Moped Wiki — Moped Army

Even though it sounds like a HUGE difference, the reason many scooter manuals say you can use, for instance: 10W40 engine oil or 75w90 gear oil is because they use completely different testing procedures and temperatures to determine viscosity ratings for engine and gear oil.

There is normally a small spring attached to the screw. Clean that of debre and then screw the plug back into the moped turning to the right. Then fill the engine with oil. Check the dipstick to make sure you fill it to the proper level, and check underneath to make sure you don't have any leaks from the oil plug.
