08:45:23 You should find five zerks on
the front CV assembly and three on the
rear one. (My info is from a later model
1345 but I believe the driveline is the
same.)

Hesston has been known as the hay and forage innovator since 1955, when the company developed the first commercially available self-propelled windrower. Other industry firsts have included the first hydrostatic windrower, the first center-pivot mower-conditioner and the first big square baler—which had nearly 50 individual patents of its own.
