Intima

In this narrative medicine essay, a hospitalist charts his emotional journey from March by the once brightly colored signs that declared hospital workers as heroes have now faded by summer reflecting how the steady and intense work of helping patients with COVID-19 has seemingly become mundane. HumanitiesA Piece of My MindCoronavirus (COVID19)

Narrative Medicine | JAMA Network

The journal Akesis was created by six University of New England Osteopathic Medicine students who wish to promote awareness of narrative medicine by creating an outlet for its practice among the UNE community of health professionals. In ancient Greek, "akesis" meant healing, or cure.

Akesis: Journal of Narrative Medicine | Journals and ...

Medicine practiced with narrative competence, called narrative medicine, is proposed as a model for humane and effective medical practice. Adopting methods such as close reading of literature and reflective writing allows narrative medicine to examine and illuminate 4 of medicine's central narrative situations: physician and patient, physician and self, physician and colleagues, and physicians and society.

Narrative Medicine: A Model for Empathy, Reflection ...

In 2016, supported by a Narrative Medicine Fellowship from Columbia University, we piloted a novel narrative medicine-based medical education intervention in which patients with HIV and medical students from the Keck School of Medicine of the University of Southern California wrote and shared personal narratives with each other.

A 36-year-old Dominican man with a chief symptom of back pain comes to see me for the first time. As his new internist, I tell him, I have to learn as much as I can about his health. Could he tell ...

Narrative and Medicine | NEJM

Journals that Accept Submissions for Medical Narratives. Medical narrative writing is the reflective writing of both physicians and patients about their experiences in medicine and clinical care. Recently, medical narrative writing has begun to be integrated into medical education in order to further instill an awareness of students' -- and their patients' -- emotions, to develop critical thinking, and to examine the medical profession and their place within it from different perspectives.
