Buttock augmentation improves the contour, size and shape of the buttocks. A buttock lift improves the tone of the underlying tissue in the buttocks. A Brazilian butt lift is a common buttock enhancement procedure.

Buttock Enhancement Procedure Steps | American Society of ...

A buttock lift is a cosmetic surgical procedure to improve the appearance of the buttocks. It may be done as part of a tummy tuck (belt lipectomy) or lower body lift to contour the buttocks, groin, thighs and abdomen. A buttock lift alone won't add any volume to the buttocks.

Buttock lift - Mayo Clinic

Your surgeon will make an incision at the top of the buttocks, in the hips, groin, or under the buttock cheeks to remove excess skin and pull the remaining skin taut. Liposuction may be used to further contour the buttock area or thighs to achieve a balanced look. Any incisions are sutured and closed in layers to ensure that the skin remains tight.
