11 Best Linux Distros For 2020: Find Perfect Windows ...

Linux MultiMedia Studio (LMMS) is an excellent freeware music creation application which competes with commercial products like Fruity Loops. Even though the name implies that it is a Linux-only application, there is infact a Windows port which runs perfectly. The main application of LMMS is able to edit beats, loops and MIDI sound tracks and is able to apply a number of special effects to your music projects.

Linux Multimedia Studio - Download

Good book for setting up a multimedia center using Linux. This will save you hours of figuring out what works and what doesn't for your purposes. The advantage is that the programs are free, open source Linux programs that blow Winblows out of the water in resource usage and power.
