The Lionel Sound Dispatching Station No. 465 had a four inch speaker that could announce train arrivals and departures with the use of a microphone. This speaker was powered by four "D" cell batteries that were housed inside the upper structure. As with other accessories that use batteries, collectors should always check for any battery damage from what Lionel called "leak proof" batteries ...

My Lionel Chief Plus locomotive has been running fine but it suddenly started intermittently making no sound. After some period of time checking engine tender connection and adding new batteries to the remote, the sound stopped. It still runs but no sound from the tender. Wanted an idea what else to check before I take it to a service store.

The biggest problem with Lionel Fastrack is that it is much louder than tubular and other types of O gauge track. So people frequently ask how to quiet Lionel Fastrack. There are a few things you can do to make Fastrack quieter. The problem is that the hollow plastic roadbed amplifies the sound of the train running above it.
