How Can I Conjure Up Some Magic And Sky Rocket My book ...
The Nikon FM2 is an advanced semi-professional, interchangeable lens, 35 mm film, single-lens reflex (SLR) camera. It was manufactured by Nippon Kogaku K. K. (today Nikon Corporation) in Japan from 1982 to 2001. The original camera was released with some incremental improvements (such as a higher flash-sync speed) in 1984, and this later version is commonly referred to as the FM2n (for 'new ...

Behind the new mount is a 24.5MP BSI-CMOS sensor which while 'Nikon-designed' is almost certainly manufactured by Sony. The sensor has 273 PDAF points and, while not as pronounced as on the Z7, striping/banding may be seen in darker tones, limiting dynamic range, though this seeing this phenomenon in the real-world is unlikely. Nikon says the on-sensor AF system is rated down to -2EV with an ...

Nikon Z6 Review: Digital Photography Review
I haven't tried this method of triggering and have only read about it in the Magic Lantern guide to the Nikon flash system, so I can't vouch for how well it works. As with all optical slaves, the receiver on the remote SB-26 must be pointed so that it can see the light of the main flash, and its range will be very limited compared to radio ...
