JRT Mechanical Inc.

Mechanical, electrical and plumbing refers to these aspects of building design and construction. In commercial buildings, these elements are often designed by a specialized engineering firm. MEP design is important for planning, decision making, accurate documentation, performance- and cost-estimation, construction, and operating/maintaining the resulting facilities. MEP specifically encompasses the in-depth design and selection of these systems, as opposed to a tradesperson simply installing eq

Mechanical, electrical, and plumbing - Wikipedia

Canusa engaged JMT Architecture to renovate the building and transform it into modern office space for the company. The renovation involved shell stabilization, structural reinforcement, new windows, roof and all new mechanical, electrical, plumbing and fire protection systems.
