The BEE III is the smallest radar available, yet it's packed with more features than any other. The industry's smallest detachable display has the largest set of speed windows, and they're color coded! The industry's smallest Ka-band antenna is weatherproof and is hard for violators to detect because no telltale lens is visible.

### **MPH Enforcer Radar**

Yes, their MPH Industries model BEE™ III, with its POP™ mode, gave them an advantage for a while. But now V1 has full-time POP Radar Protection on two bands. Yet a problem remains. When operated in its POP mode, those radars also produce erroneous speed readings every time. Moreover, we believe MPH Industries knows this feature is faulty.
