China is by far the largest market for production and consumption of steel. In China, steel is used primarily for vehicle manufacturing, construction materials, and consumer electronics.

World crude steel demand 2020 | Statista

Short-term outlook to 2022 If demand growth stays healthy and OPEC maintains disciplined regarding production, we expect to see average oil

prices in the USD60-70/bbl range to 2020. After 2020, prices are likely to remain closer to USD60/bbl, due primarily to sluggish demand growth and continued production of shale oil in North America.

Global Market Outlook for Titanium Dioxide 2020-2027 - Capacities, Production, Consumption, Trade Statistics and Price Outlook News provided by Research and Markets

Global Market Outlook for Titanium Dioxide 2020-2027 ...

In 2019, U.S. energy production exceeded energy consumption for the first time since 1957, and U.S. energy exports exceeded energy imports for the first time since 1952. U.S. energy net imports as a share of consumption peaked in 2005 at 30%. Although energy net imports fell below zero in 2019, many regions of the United States still import significant amounts of energy.

Fossil fuels account for the largest share of U.S. energy ...
