I think the power dynamic is fairly well-balanced. Um, uh, I think it's more balanced now than it's been, at least in my, sort of, memory, um, you know, of course, really good developers have a lot of power because, you know, they know they're good, and other people know they're good, and everyone wants their games.

With the deprecation announcement of the Dynamics 365 connector, a common question is guidelines for interacting with Dynamics 365 Apps using Common Data Service Connectors.Why I say connectors is because there are two Common Data Service connectors. This post on our PFE team blog describes how to find these different connectors and differences in triggers and actions.
