The Chicxulub impact played a crucial role in the Cretaceous–Paleogene extinction. However the earliest postimpact effects, critical to fully decode the profound influence on Earth's biota, are poorly understood due to a lack of high-temporal-resolution contemporaneous deposits. The Tanis site, which preserves a rapidly deposited, ejecta-bearing bed in the Hell Creek Formation, helps to ...

Publishers who failed to adhere to the City's expectations were censured, as in 1816 when Robert Butler was criticised for including indecent material in the Proceedings. Conclusion There is no reason to question the accuracy of most of the rich details provided in the trial accounts published in the Proceedings .

Of these Robert Hooke has good claims to be considered the greatest. Probably the most inventive man who ever lived, and one of the ablest experimenters, he had a most acute mind and made

astonishingly correct conjectures, based on reason, in all branches of physics.

Description: The Proceedings journal contains papers that have been read before the members of the American Philosophical Society at meetings held in April and November. The papers sometimes are given as part of a topical symposium. In addition, articles that have been submitted by outside authors, reviewed by qualified scholars in the particular fields of study, and accepted for publication ...
