Cap-A Radiator was founded in Farmingdale, NY in 1982 by Bill Carberry. As opposed to almost every other radiator and air conditioning specialty shop in the county, Bill's business still exists. In fact, due to an expansion into other areas, Cap-A Radiator is growing. And so is the website.

Classic Radiator and Heaters - CLASSIC HEATERS

The radiator is a likely problem area when overheating is involved. Early Chevrolet cars & trucks used honeycomb radiator cores until 1933. The original honeycomb design core cannot be cleaned out as it has a zig-zag design where the water flows. Another thing to consider is that the radiator is 80+ years old.

1918-1936 Cooling System Problems & Cures

Each radiator is manufactured with all top quality material Each assembly comes complete with the following standards: Designed to operate with a 15 lb. to 18 lb. cap. Top tanks are stamped from .040 deep draw Brass. Pre-drawn heavy (12 Ga.) steel rod holder with threaded holes for all attachments. (Where needed.)

Excessive heat warps your vehicle's under-hood components, but its cooling system is the number 1 defense against deformation. Your Pontiac Firebird radiator cap keeps fluids inside the radiator and is available for removal when you need to add coolant. If it's missing, rusty or otherwise corroded, your car's motor is at risk of overheating.

Firebird Radiator Caps - Best Radiator Cap for Pontiac ...

Cracked radiator. A leaking radiator won't hold coolant and that's like a person losing blood. You can replace leaking hoses, but if the radiator has a crack, you'll need to replace it. Sludge present in the radiator. Radiators regularly maintained by occasional flushing won't develop sludge.

Radiators - Advance Auto Parts

Be Cool designs their radiators in the same "Crossflow" / "Downflow" configuration as the original radiator to avoid any installation issues but that is where the similarities stop! Crossflow radiators are constructed with their tanks on the sides, while a Downflow radiator has its tanks on the top and bottom of the core.
