Welcome to Boreal Science

ScholAR is an advanced virtual lab, designed to provide a digital platform for conducting a variety of interactive science experiments. Many of these experiments are based on real life scenarios.

ScholAR - Breaking Barriers. Unshackling Complexity.

AP Chemistry is a fairly lab-centric course, so you should be prepared to spend a lot of time doing hands-on experiments (at least 25 percent of the class!). The lab requirements are open to some interpretation, but, per the curriculum guidelines, courses must include at least 16 labs total, at least six of which are special "guided inquiry" labs.

Introduction to the Flame Test Lab: The Flame Test lab was an in-class lab where we tested chemicals in the flames to see the wide range of colors in the color spectrum. The secondary purpose of the lab was to identify unknown compounds that we would test and then guess as to what they were. The Flame Test lab was done in several parts.
