Just getting into skydiving, this book is a great read. It will inform you about a lot about the sport, the equipment (past and present), the training and beyond. Being on it's 10th edition, you can see where some of the newer stuff was put in and the flow of the book becomes slightly contorted from time to time, but the information is there and most of it is very useful to a new or not-yet-skydiving person.
