Ongoing professional development keeps teachers up-to-date on new research on how children learn, emerging technology tools for the classroom, new curriculum resources, and more. The best professional development is ongoing, experiential, collaborative, and connected to and derived from working with students and understanding their culture.

Why Is Teacher Development Important?: Because Students ...

By collecting information about what goes on in our classroom, and by analysing and evaluating this information, we identify and explore our own practices and underlying beliefs. This may then lead to changes and improvements in our teaching. Reflective teaching is therefore a means of professional development which begins in our classroom. Why it is important.

The aim of this review is to provide a critical analysis of language teacher research engagement. The term 'research engagement' here covers both engagement in teacher research (i.e. by doing it) as well as engagement with research (i.e. by reading and using it). Research engagement is commonly recommended to language teachers as a potentially productive form of professional development ...

Language teacher research engagement | Language Teaching ...

Basic skills to improve emotional intelligence in teachers. Emotionally intelligent people have five basic skills. In order to describe each one of them, we were inspired by Salovey's work, who organized these skills in the following order:. Self-knowledge: Knowing one's own emotions and the relationship they have with our thoughts and actions will allow us to be more self-aware.

The Importance of Emotional Intelligence in Teachers ...
