I was truly dissapointed after cracking open a recent order of "The Art of Monsters Inc." Previous editions of the Pixar Legacy have overflowed with good stuff. Unfotunately this volume only skims the surface of what surely rests in the vaults. (Quite possibly Pixar might not like us to know what goes on behind the scenes.)

The collection of concept art is very colourful, especially the pastel drawings by Dominique Louis and Ralph Eggleston. Every panel drawn by them is a delight to look at. The variety and style is great since numerous artists are commissioned to create in their own style. We get to see the many conceptual drawings for Scully and the other monsters.
