The Sissy Boy Syndrome Book Description: The important book is the first longitudinal study of the development of male homosexual behavior from early childhood to young adulthood.

The Sissy Boy Syndrome: The Development of Homosexuality ...

This book is one of the very few available that validates boys who go through a sissy stage during their childhood in an intellegent fashion. Through research and analytical thinking and writing, Green finally validates that in his research he found that "it is not playing with girl toys and idenfifying with female play that makes a boy gay, it is a strong indicator that he already is gay however".

The Sissy Boy Syndrome: The Development of Homosexuality June 9, 2011 — Suzan I remember reading this repulsive book documenting Richard Green's abuse and torture aka reparative therapy aimed at abusing away the sissy from sissy boys.

The Sissy Boy Syndrome: The Development of Homosexuality ...

He illuminates one of many developmental pathways to homosexuality as well as other outcomes of the 'sissy boy syndrome.' What has been largely speculation about the role of parents is now buttressed by empirical fact. The study is an heroic and pioneering undertaking and students of human behavior are greatly in Dr. Green's debt."—Dr. Evelyn ...
