The Visual Display Of Quantitative

"The theory of the visual display of quantitative information consists of principles that generate design options... The

Online Library The Visual Display Of

Quantitative
Information
Edward R. Tufte

principles should not be applied rigidly or in a peevish spirit... and it is better to violate any principle than to place graceless or inelegant marks on paper. Most principles of design should be greeted with some skepticism."

Tufte's writing is important in such fields as information design and visual literacy, which deal with the visual communication of information. He coined the word chartjunk to refer to useless, non-informative, or information-obscuring elements of quantitative information displays. Tufte's other key concepts include what
