Model 1215 Threading Machine | RIDGID Tools

A common method of threading is cutting with taps and dies. Unlike drill bits, hand taps do not automatically remove the chips they create. A hand tap cannot cut its threads in a single rotation because it creates long chips which quickly jam the tap (an effect known as "crowding" [citation needed]), possibly breaking it.Therefore, in manual thread cutting, normal wrench usage is to cut the ...

Threading (manufacturing) - Wikipedia
