Youth Activism. The desire of some university students to emphasize recreational pursuits over academics has been a constant over the centuries. Another historical constant has been the tension between students and those they interact with off the campus. Moreover, it has usually required extraordinary events outside the university to move youths to act in a political manner.

Youth activism is the participation in community organizing for social change by persons between the ages of 15–24. Youth activism has led to a shift in political participation and activism. A notable shift within youth activism is the rise of “Alter-Activism” resulting in an emphasis on lived experiences and connectivity amongst young activists. The young activists have taken lead roles in public protest and advocacy around many issues like climate change, abortion rights and gun ...

YOUTH. YOUTH. The transitional phase of life between childhood and adulthood in early modern Europe is not easily fixed chronologically. Traditionally childhood ended around age seven, but since full adulthood was usually marked by marriage, "youth" (Latin *iuventus*) could last as little as ten years and as long as twenty-five or more years. Consequently, terms for male youths, such as lad or ...

Youth activism Student or youth activism is no longer a new occurrence. Students worldwide have taken part in street protests for many years due to various reasons. In the United States of America, the peak of youth protest activities came in the 1960s and 1970s mainly because of the Vietnam War and civil rights movement.
